

AQUAFORCE[®] e-MTV

Packaged Booster System

Introducing AQUAFORCE e-MTV Packaged Booster System from Goulds Water Technology

Features that make a difference

- 2 or 3 pump configurations available
- e-SV stainless steel vertical multistage pumps
- Up to 950 GPM, need eng. to confirm regarding working pressure
- 208-230, 460, 575 Volt premium efficient motors
- 304 stainless steel grooved manifolds
- UL Type 1 control panel
- 7" color touchscreen interface
- Individual drive circuit breakers
- Lead/lag alternation
- No flow shutdown
- Pipe fill mode
- Trending log: run time, pressure and flow

General

- NSF/ANSI 61 Annex G certified
- UL/cUL category QCZJ package Pump system listing
- UL508A control panel listing
- BTL certified

Typical applications

- Rural water districts
- Irrigation
- Industry plants
- Buildings

Standard options

- Manifold flanges
- Optional low inlet pressure switch (ship loose)
- Alarm horn
- MODBUS® serial RS-485 or TCP/IP
- Thermal purge
- Redundant pressure transducer
- System protections: pump/VFD fault, loss of prime, transducer fault, end of curve protection, high and low pressure

AQUAFORCE e-MTV family curves

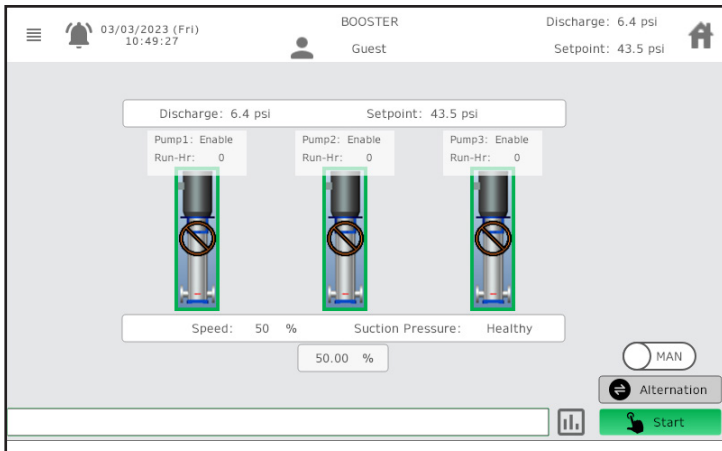

NOTE: Specifications /equipment are subject to change without notice. Verify with factory.

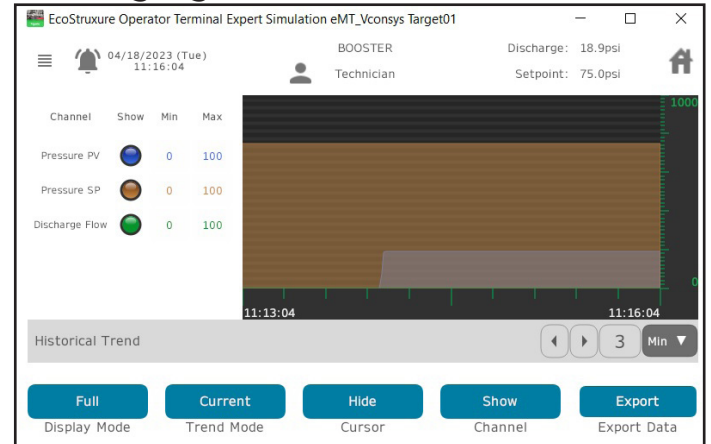

1. e-MTV Pump Logic Controller with UL Type 1 enclosure and 7" full color touchscreen interface. Intuitive and simplified user interface for ease of commissioning and troubleshooting
2. Station disconnect switch
3. VFD per pump/motor assembly permits continued operation and serviceability while maintaining partial or full flow
4. Premium efficiency motors
5. e-SV vertical multistage pumps (not shown)
6. 304 stainless steel suction and discharge manifolds grooved end (optional flanges)
7. 2.5" pressure gauges
8. NSF-61 certified isolation valves
9. Silent Type 316 stainless steel check valves
