

HAVE A DEEPER LOOK AT THE FACTS

Our new line of 4" high head submersible pumps feature completely redesigned hydraulics for better performance at greater depths than competitive pumps

- Additional stages deliver up to 45% higher pressure
- Allows for deeper sets with the same horsepower
- Redesigned impeller for improved hydraulic efficiency and overload prevention
- Superior sand handling
- VFD compatible

For a deeper look at the facts about submersible pumps, visit goulds.com/betterpumps

Based on 1 HP, 10 GPM pumps. Competitive information comes from applicable competitive websites.
