

Introducing e-HME & e-SVE Smart Pumps from Goulds Water Technology

A Complete Variable Speed System Delivering Market-Leading Efficiency and Performance

PRODUCT RELEASE

GOULDS WATER TECHNOLOGY, a Xylem brand, is pleased to expand our multistage pump line with the new e-HME and e-SVE Smart Pumps. It's time to think beyond single components. For top efficiency in residential, light commercial, industrial, agricultural and OEM water supply and HVAC applications, your customers need the right combination of 1) motors; 2) variable speed drives; and, 3) hydraulic pumps – ensuring reliable performance, maximum savings and a rapid return on investment. The pre-programmed e-HME and e-SVE Smart Pumps combine those three essential components in an easy to install package – so your customers benefit from the power, intelligence and performance of the Smart Pump Range right out of the box!

So, when it's time to think efficiency ... start with the new e-HME and e-SVE Smart Pumps from Goulds Water Technology – a complete variable speed system, delivering market-leading efficiency and performance.

e-HME SMART PUMP:

Five ranges offer flexibility for a wide list of applications, including residential and commercial pressure boosting, industrial and HVAC, and irrigation. Delivers up to 130 GPM and 540 feet. Available in .5 – 3 HP.

e-SVE SMART PUMP:

Six ranges with multiple construction designs for a variety of applications, including residential and light commercial, OEM applications, and HVAC. Delivers up to 85 GPM and 710 feet. Available in .5 – 3 HP.

PRODUCT AVAILABILITY

The e-HME and e-SVE Smart Pumps are available for immediate sale

BENEFITS OF e-HME AND e-SVE SMART PUMPS FEATURING THE XYLEM SMART MOTOR:

Efficiency: best-in-class IE5 motor

Each pump is equipped with a permanent magnet "ultra-premium" Xylem Smart Motor that meets IE5 specifications, providing efficiency well above a standard IE3 NEMA Premium efficient synchronous motor.

Intelligence: single or multipump systems

The easy-to-set-up Xylem Smart Motor can operate single or multipump systems of up to three pumps, with no need for an external control panel or PLC.

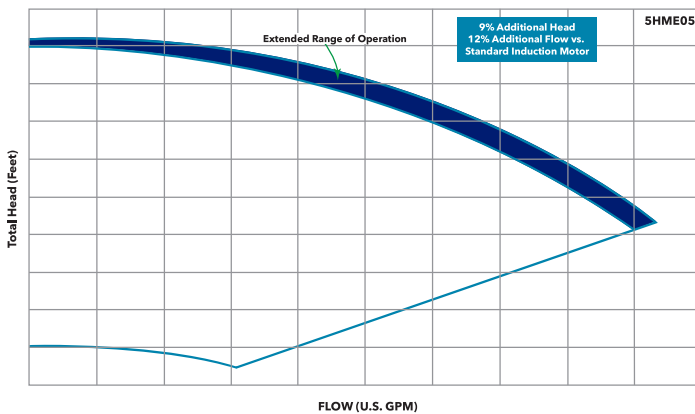

Performance: robust pump range

The Smart Pump Range includes a series of single phase pumps that provide enhanced hydraulic performance for residential, industrial, light commercial, agriculture and OEM applications.

Pump protection & controls: safety and monitoring tools

The Xylem Smart Motor comes with a wide range of monitoring, control and safety features right out of the box with no need to configure.

Typical Example of Increased Performance

We look forward to a successful product launch and we appreciate your continued support.
