

Pneumatic Drive Bellows Pump

lwaki America's FF Series pumps are economical solutions for low to medium temperature liquid applications (5 to 100°C). PTFE bellows and liquid end share the same proven design and manufacturing quality as the rest of the F Series family, ensuring high purity and long service life. All metal parts are fully encapsulated. The FF-10/20CT2 has a PVC housing coated with fluoroplastic, suitable for liquids up to 50°C; a fluoroplastic encapsulated housing allows the FF-10/20BT2 to pump fluids up to 100°C. Integral PFA tube connections mean there are no crevices or seams where particles can accumulate. A wide variety of fittings can be easily attached.

Intelligent sensor technology is a standard FF series feature: pressure, stroke and speed are optimized, maintaining accurate chemical delivery and extending pump life. Leak detection ensures immediate response to hazards.

*NPT conversion fittings are available

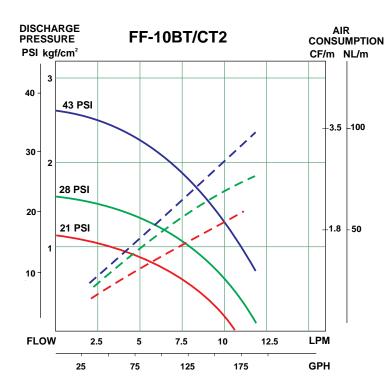

| Model | FF-10BT2 | FF-10CT2 | FF-20BT2 | FF-20CT2 | | | | | |
|---|-----------------------|-------------------|-----------------------|-------------------|--|--|--|--|--|
| Maximum discharge capacity ¹ | 2.6 gal/mii | n (10 L/min) | 5.8 gal/min(22 L/min) | | | | | | |
| Maximum stroke speed | 120 spm | | | | | | | | |
| Maximum stroke length | 0.7 in (| 18 mm) | 0.9 in (24 mm) | | | | | | |
| Self-priming ability ² | 3.28 f | t. (1 m) | 6.56 ft. (2 m) | | | | | | |
| Liquid temperature range | 41-212°F (5-100°C) | 41-122°F (5-50°C) | 41-212°F (5-100°C) | 41-122°F (5-50°C) | | | | | |
| Ambient temperature | 32 - 104°F (0 - 40°C) | | | | | | | | |
| Maximum air supply pressure | 43 PSI (3 kg/cm²) | | | | | | | | |
| Liquid contacting material | PFA / PTFE | | | | | | | | |
| Maximum air consumption | 3.2 CFM (9 | 90 NL/min) | 6.4 CFM (180 NL/min) | | | | | | |
| Pump connection size | PFA 1/2 | 2" tubing | PFA 3/4" tubing | | | | | | |
| Supply air connection size* | PT 1/4" | | | | | | | | |

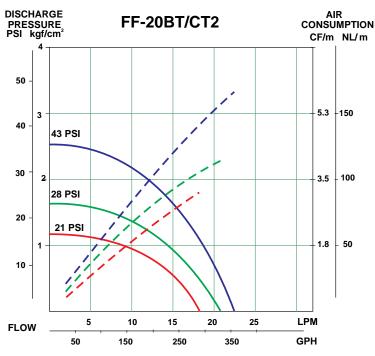

¹ The maximum discharge volume is based on pure water at room temperature.

² The self-priming value is based on the maximum stroke rate with pure water at room temperature.
