

## Typical Uses

Tea/Coffee  
Machines  
Ice Makers  
Refrigerators

*Designed to operate with  
refrigerator ice & water valves.*

## Eco-Friendly!

Up to 25% more energy efficient  
than previous bottled  
water systems

**The NEW Eco-Friendly  
Bottled Water System Plus  
is environmentally responsible  
and supports energy efficient homes  
and businesses and a healthier planet.**

## Xylem ['zīləm]

- 1) The tissue in plants that brings water upward from the roots;
- 2) a leading global water technology company.

We're 12,000 people unified in a common purpose: creating innovative solutions to meet our world's water needs. Developing new technologies that will improve the way water is used, conserved, and re-used in the future is central to our work. We move, treat, analyze, and return water to the environment, and we help people use water efficiently, in their homes, buildings, factories and farms. In more than 150 countries, we have strong, long-standing relationships with customers who know us for our powerful combination of leading product brands and applications expertise, backed by a legacy of innovation.

## Eco-Friendly!

Up to 25% more energy efficient  
than previous bottled  
water systems

# Bottled Water System Plus

FOR HOME AND COMMERCIAL APPLIANCES

**FLOJET**  
a xylem brand

# The New Eco-Friendly Bottled Water System Plus is part of Flojet's premium water dispensing product line.

When a water bottle is connected to the system, fresh water is available for use with coffee/tea machines, water dispensers, refrigerators, ice makers, or any other application where portable potable water is needed.

The Bottled Water System Plus is also designed for convenience – the pump shuts off when the water source is depleted, and when water is restored, the pump will automatically restart. This eliminates the chance of any damage to the pump and control box from running dry.

## Easy to Use!

New quick connect port fittings allow for fast installation and replacement of suction and discharge tubing.

**Float Switch**  
For automatic shut-off

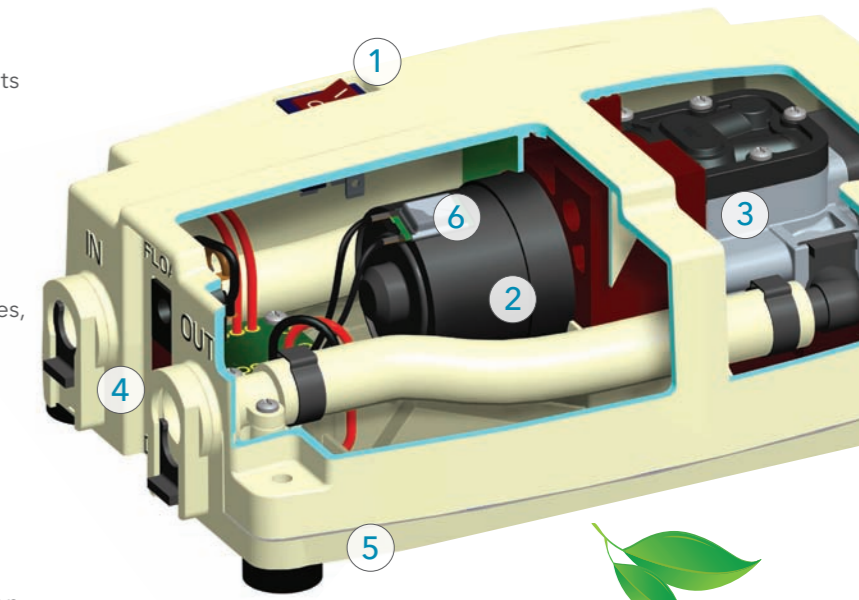

**Easy to Install**  
New quick connect port/fittings

Backed by the Flojet brand of electric diaphragm pump technology, a brand enjoying over 35 years of operational excellence

- 1 **Illuminated On/Off Switch**  
Provides clear visibility in dark cabinets or hard to reach places.
- 2 **Long Life Motor**  
Ensures years of reliable operation.
- 3 **Flojet Diaphragm Pump**  
Provides dependable run dry capabilities, extending the life of the pump.
- 4 **Quick Disconnect Port**  
Allows for easy wand replacement in seconds.
- 5 **Quiet Operation**  
Equipped with noise dampening rubber feet to minimize noise pollution.
- 6 **Thermal Protection**  
Prevents overheating, protecting the pump and control box from damage.

**Eco-Friendly**  
Up to 25% more energy efficient than previous bottled water systems

## FLOJET

### Bottled Water System Plus

- Over the past 12 years, Flojet Bottled Water Systems have helped serve over two million cups of coffee per day in cafes and coffee shops worldwide.
- Backed by the Flojet brand of electric diaphragm pump technology, a brand enjoying over 35 years of operational excellence.
- Flojet's robust electric diaphragm pump design, proven with over seven million units in service.
- Flojet Bottled Water Systems protect the environment by eliminating the need for a water filter when dispensing water to your refrigerator, preventing over 300,000 filters from being disposed of each year.
- Available in 115V AC, 230V AC 50/60 Hz.
