

JabSCO VR050-CF24 Diesel Refuelling Pump FOR REFUELLING 'OFF HIGHWAY' VEHICLES

The NEW vehicle mounted Diesel Refuelling Pump with an Intelligent Controller, designed to make refuelling safer and faster. Intelligent Control provides an auto shut-off feature in the event of the fuel tank becoming full or the refuelling drum becoming empty. It also shuts off if the pump is left on inadvertently or it detects an over-pressure situation, such as a blockage in the filter or the hose becoming kinked.

Features and Benefits

- Protected against dry running and tank overfilling
- Protected against overload and being left on accidentally
- Fast refuelling at 50 litres per minute (13 GPM)
- High Head capacity at 10 metres (32ft)
- Self priming up to 3 metres (10ft)
- Continuously rated
- Vibration tested IP55 protected motor
- Supplied with or without float switch
- 3 year warranty

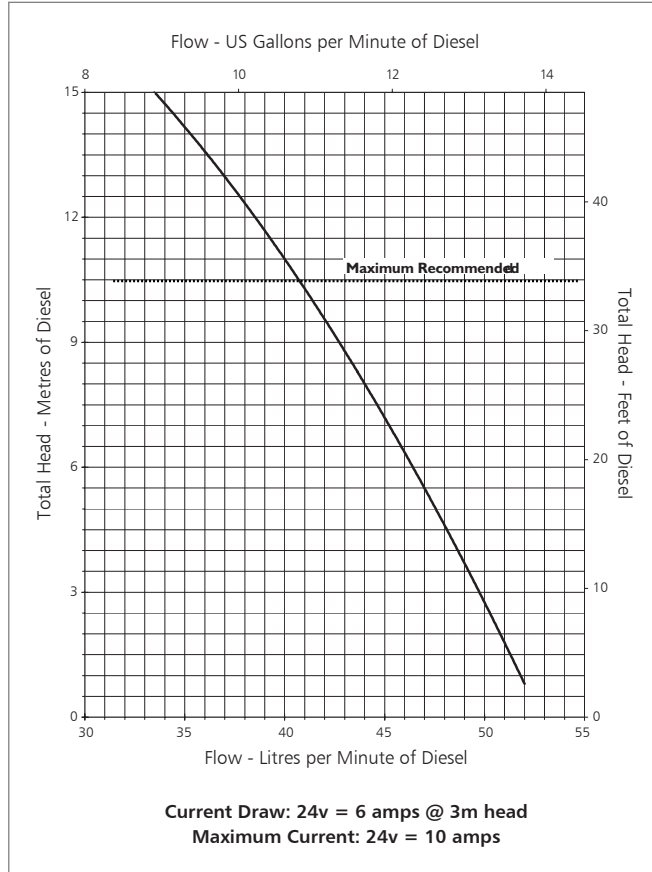

JABSCO VR050-CF24 DIESEL REFUELLING PUMP | FOR REFUELLING 'OFF HIGHWAY' VEHICLES

Designed for refuelling medium sizes diesel powered vehicles [typical tank sizes 200 - 500 litres (50 - 125 gallons)] from drums.

Suitable for mounting to excavators, cranes, road rollers (compactors), pavers, agricultural machines and generators.

Suitable for diesel and kerosene.
