

JABSCO[®] PUMPS

MODEL 17680-0001

FEATURES

- Self-Priming
- Silent Operation
- Corrosion Resistant Materials
- Simple Low Cost Service
- Flow 4 GPM at 5 Feet Head

PUMP

Phenolic plastic with stainless steel wearplates molded in, carbon ceramic face seal, neoprene impeller with bronze motor shaft sleeve, port connections for 5/8 in. slip-on hose.

MOTOR

115 volt, A.C., single phase, 60 cycle, 1/4 HP, continuous duty, thermal overload protection.

MODEL 17680-0001

DIMENSIONAL DRAWING

DISASSEMBLY

1. Remove four body screws and nuts, pull body off seal housing and impeller.
2. Remove impeller and gasket.
3. Remove bearing housing clamp and slide seal housing assembly off motor shaft.
4. Replace all worn or damaged parts.

Form 43000-0023 Rev. 9/79

HEAD VS. FLOW

ASSEMBLY

1. Coat motor shaft with grease.
2. Replace seal seat and rubber cup in housing (be sure all seal parts are clean and free of particles). Use only water to lubricate seal parts for assembly.
3. Coat impeller bore in body with grease and replace impeller in body with twisting motion. Place gasket on body with outline matching body shape.
4. Assemble body, impeller and gasket to seal housing. Make sure register is engaged and secure with four screws and nuts.
5. Install carbon seal assembly over drive sleeve and push carbon up against ceramic seat. Place spring cup on motor shaft and slide back against shoulder. Locate spring in cup.
6. Line up drive sleeve tang with flat on motor shaft and slide pump head toward motor. Be sure spring is centered in cup and over rear of carbon face assembly. Push pump head tight against motor hub and replace clamp.

PARTS LIST

Part Number	Description	Qty
91014-0040	Screw	4
91085-0030	Nut	4
17634-0000	Body	1
17638-0000	Gasket	1
17486-0001	Impeller Assembly	1
