JET RITE

2.1 - 8.5 GALLON ACCUMULATOR TANKS

The Jet Rite series accumulator tanks have internal air charged bladders that enable pressure adjustment through their external "tire stem" type fitting. Three sizes are available. The JR25-03S also has a mounting platform that saves space by allowing your pump to be placed on top. Larger sizes are available. Call us for assistance.

JABSCO

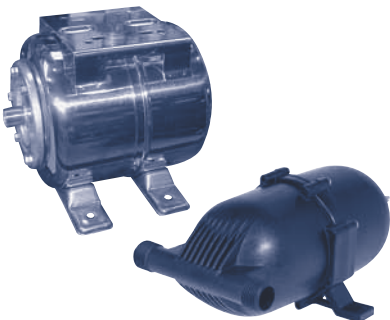

1/3 - 2 GALLON ACCUMULATOR TANKS BY JABSCO

Jabsco accumulator tanks are available in a variety of styles to fit your system's requirements. The 30573 Series contains an adjustable air bladder and will accept the Jabsco snap-in fittings found on page 64. It comes with two 1/2" hose barbs and two 1/2" Qest threaded fittings. The 12573-3000 must be mounted in a vertical position to utilize its trapped air to cushion water flow. For larger systems Jabsco provides the 18810-0000. This two gallon accumulator tank utilizes an adjustable air bladder that allows it to be mounted at any angle (a convenient mounting bracket is included).
