

WASHDOWN HOSE COILS AND BALLAST PUMPS

CONTENTS

HOSE COIL WASHDOWN ENCLOSURE SYSTEMS

This clever design allows you to mount a hose coil enclosure flush into a deck, vertically on a bulkhead or horizontally in the cockpit. Plumb the enclosure directly to a high volume washdown pump or water hose using the 5' supply hose that come with a 3/4" GHT fitting. Adapter fittings are included to fit 3/8", 1/2" and 5/8" hose. They are constructed of light weight durable UV stabilized plastic.

Part Number	Description
JA 31910-0115	Flush mount enclosure with 15' blue hose coil.
JA 31910-2115	Horizontal mount enclosure with 25' blue hose coil.
JA 31910-3115	Side mount enclosure with 15' blue hose coil.

Hose With Enclosure

15' AND 25' HOSE COILS IN BLUE OR WHITE

These UV stabilized hoses wind into a 4" diameter coil for easy and compact storage. They are available in 15' and 25' lengths in blue or white 3/8" diameter polyurethane. Both ends of each hose are fitted with solid brass 3/4" garden hose fittings for long life and rust free use.

Part Number	Description
JA 31910-1015	15' blue hose coil in 3/8" diameter with 3/4" GHT solid brass fittings
JA 31910-1025	25' blue hose coil in 3/8" diameter with 3/4" GHT solid brass fittings
JA 31910-2015	15' white hose coil in 3/8" diameter with 3/4" GHT solid brass fittings
JA 31910-2025	25' white hose coil in 3/8" diameter with 3/4" GHT solid brass fittings

Hose Coils

FLUSH MOUNT STAINLESS STEEL HOSE FITTINGS

These are the perfect solution to remove an unsightly hose bib deck fitting and rusty knob. They also enable connection to a water hose in seconds. Each deck fitting comes with one hose adapter with a pre-installed check valve. When mounted on a hose, this adapter will connect the hose to the deck fitting with a simple twist (additional adapters are available separately). The adapter connects to a 3/4" garden hose connection and the flush mount fitting comes with a 1/2" FPT to allow connection to a fresh water or salt water supply.

Part Number	Description
JA 31911-0000	Stainless steel flush deck fitting with 1 3/4" garden hose adapter
JA 31911-0002	Extra 3/4" garden hose adapter

Flush Mount Fittings

WAKEBOARD AND SKI BOAT BALLAST PUMP

Jabco now offers a wakeboard and ski boat water ballasting pump that can deliver almost 80 pounds (10 gallons) of water ballast per minute filling the typical 40 gallon ballast tank in under 5 minutes! They are self-priming, will not airlock and are reversible to both fill and empty a ballast tank. These pumps also feature an exclusive (patent pending) run-dry protection that shuts off the pump before the impeller is damaged.

Model Number	Max GPM/LBS	Volts	Ports	Dimensions (H x W x L)
JA 18220-1123	10 GPM / 80 lbs	12 vdc	1/2" FPT or 1" Barb	3 5/8" x 4 1/4" x 7 1/8"
