Kevin Griffith (President)

From our humble beginning in Don Teel's garage, we have focused on one thing and one thing only... PUMPS! Don Teel cut his teeth on pumps in the early days of Grainger where Mr. Grainger (Don Teel's mentor), appointed him the head of Grainger's pump division. Over 20 years later (in 1967) Don retired to Florida and discovered there was a desperate need for a real marine pump specialist. True, there were plenty of places that sold pumps along with life jackets, anchors and fish hooks, however, there was not a single place that knew every aspect of the pumps found on boats...

a place that carried every type of pump in stock and the service parts to keep them going... a place where you could have your pump repaired, tested and back to you in short order... a place where you could obtain assistance in selecting the right pump for your application.

Seeing the need, Don started Depco to fill this void. In May of 1977 I was hired and 3 months later we moved out of his garage and into our first building. Our first catalog was published in 1985, the same year Don retired and I purchased the company. In 1999, after several expansions to make room for our increasing inventory and growing number of personnel, we moved into our current state of the art 25,000 square foot facility. In 2006 we were again busting at the seams. We needed even more space for our ever expanding inventory. By the summer of that year we expanded our facility by another 6,500 square foot bringing our current total under roof to 31,500 square feet.

We are here to serve you through our:

- 7 million dollar inventory of pumps and service parts
- 14 inside pump specialists ready to take your call and identify what you need
- Complete repair and fabrication shop with 8 full time mechanics
- Friendly human phone answering system

All of us at Depco are ready to serve you. As noted above, when you call Depco a human will answer your call (no automated attendant here) and you will be directed to one of our 14 specialists. If all the lines are busy for more than two minutes you may find one of my managers or me answering the phone to keep you from wasting your valuable time on hold. Whether you want a gasket or a complete pump our service will be informed, prompt and courteous. That's the way Don would have wanted it and that is the way I make sure you receive it!

Don Teel (Founder)
