

THIS CATALOG IS OUR EXPANDED LINECARD!

This catalog is intended to be an expanded linecard covering the majority of products available from Depco. There is no way to include (within these pages) all the information required for you to make an informed pump selection. Nor is there any way to include in written form the depth of application and system experience our pump specialist offer. That is why we encourage you to call us at 800-446-1656 on every pump applications your encounter. We will walk you through the pump selection process, share with you our experience and provide all the necessary data to make an informed pump selection. If you prefer to do your own research, we will be glad to provide additional performance and dimensional specifications via fax, by e-mail or through our website.

HOW TO FIND WHAT YOU ARE LOOKING FOR IN THIS CATALOG

Page one gives you a quick reference on each section of the catalog and on which pages you'll find them.

These pages appear at the beginning of each section and contains a mixture of mini-indexes, family curves, rules of thumb and unique pump solutions.

Page 140 provides an index for the pump types, brands, construction materials, etc. on every pump displayed in our catalog.

HOW TO OBTAIN FLOW CURVES, SPEC SHEETS, MOUNTING DIMENSIONS, ETC.

On the internet: Our website contains thousands of flow curves, spec sheets, installation guides, etc. and the PDF format of this catalog. Simply go to the picture or curve of the pump on which you want additional information, click on it's picture or curve and you will be immediately linked to the available resource on our site. We'll be updating this information with new data as we obtain or create it. If we haven't posted what you want give us a call. We'll fax or e-mail it to you ASAP.

Via fax/e-mail: Call any of our pump specialists and we'll assemble and fax or e-mail all the information you require to make an informed pump selection.

By mail: Need a factory printed hard copy brochure for a sales presentation to your customer? We maintain a library of factory created information for many of the lines we represent. We'll be glad to forward to you what we have to maximize the effectiveness of your presentation.
