

SANITARY CENTRIFUGALS

AMPCO AC AND AC+ SERIES PUMPS

All AC and AC+ series pumps are fully interchangeable (performance and dimensional) with other manufacturers C-series pumps, including Tri-Clover, TopLine, Purity.

- CIP capability
- Temperatures to 212° F
- Sanitary Clamp, ACME thread, or NPT (male or female) are optional
- Buna, EPDM or Viton® elastomers
- Standard C-Face motor mounting
- Hydraulic balancing reduces wear and increases efficiency
- Polish available down to 10 RA (320 grit)
- AC+ series pumps have all the same features, dimensions and performance as the AC series but have an upgraded shaft and impeller mounting design - see below

SHAFT UPGRADE FOR AMPCO AC+ SERIES

- The AC+ shaft design is retrofittable to both Ampco AC series and also other manufacturers C-series pumps
- Clamped stub shaft and threaded impeller nut provide more stable performance.
- More stable shaft gives improved seal life
- Reduces risk of impeller fouling on casing which is associated with standard C-series design

PEDESTAL VERSIONS OF AMPCO AC AND AC+ SERIES PUMPS

- All AC and AC+ series pumps are available as pedestal mounted pumps
- Enables wider range of pump speeds and flows
- Can facilitate the use of alternative pump drives - electric motor, hydraulic motor, gas driven, etc.
