

HEAVY DUTY SANITARY CENTRIFUGALS

LC SERIES PUMPS - WITH SINGLE SEAL

- The Ampco LC series has the same dimensional and performance capabilities as the Fristam FPX series pumps
- Standard motor adaptor is made from 304 stainless steel
- Standard seal is Silicon carbide/Carbon/Viton
- Optional chrome oxide rotating element
- Handles liquids up to 1200 cp viscosity

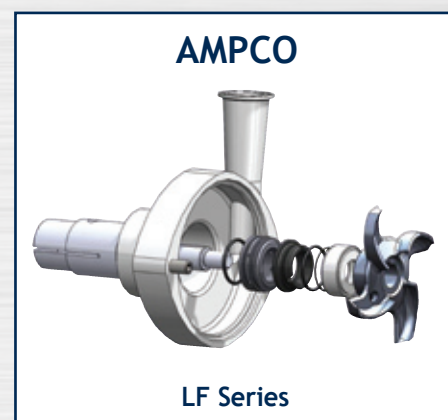

LD SERIES PUMPS - WITH DOUBLE SEAL

- The Ampco LD series has the same dimensional and performance capabilities as the Fristam FP series pumps.
- Standard motor adaptor is made from 304 stainless steel
- Standard seal is Silicon carbide/Carbon/Ceramic/Viton
- Optional chrome oxide rotating element
- Handles liquids up to 1200 cp viscosity

LF SERIES PUMPS - WITH FRONT MOUNTED SINGLE OR DOUBLE SEAL

- The Ampco LF series has the same dimensional and performance capabilities as the Fristam FPR series pumps.
- Standard motor adaptor is made from 304 stainless steel
- Standard seal is Silicon carbide/Carbon/Viton
- Optional double seal
- Handles liquids up to 1200 cp viscosity

SP SERIES PUMPS - SANITARY LIQUID RING PUMPS FOR CIP RETURN

- Flows to 210 gpm, pressures to 195' of head
- The Ampco SP Series pumps has the same dimensions and performance capabilities as the Fristam FZX Series
- Ideally suited for CIP systems with entrained air
- Handles shear sensitive liquids gently
- Optional double seal
