

AMPCO ZL SERIES (JEC), Flows to 450 gpm, 355 psi

Ampco's ZL Series pumps are designed and built to suit all sanitary pumping applications found in the food, dairy, beverage and cosmetic industries. This series will handle liquid from 1 cp to 1,000,000 cp and self-prime up to 5 feet. There are 4 gear box sizes with 4 types of rotors each. Many different port connections and mechanical seal options are available.

APPLICATIONS INCLUDE:

- Bakeries
- Beverage
- Candy
- Canned Food
- Cosmetics
- Dairy
- Dressings
- Flavorings
- Meats
- Industrial

AMPCO ZP1 AND ZP2 SERIES, Flows to 310 gpm, 500 psi

The Ampco ZP1 and ZP2 pumps are dimensionally and hydraulically interchangeable with competing brands, but with several upgraded features such as 17-4 solid stainless steel shaft and stainless steel gear cases as standard. These pumps offer Waukesha and Wright users economical alternatives for new pumps, interchangeable parts, and a factory rebuild program.

APPLICATIONS INCLUDE:

- Dairy
- Meat Processing
- Bakeries
- Candy
- Sauces
- Condiments
- Cosmetics
- Beverage
- Industrial
