

JABSCO QUIET FLUSH TOILETS

QUIET FLUSH TOILETS

Quiet Flush toilets are a variation of the well proven and popular 37010 series electric toilet. Designed to radically reduce noise levels, Quiet Flush toilets make life on-board more comfortable for all crew members, especially those sleeping!

Two versions are available, either for connection to the vessel's existing pressurized water system or supplied with a remote mounted pump to use salt, river or lake water to flush.

- May be mounted up to 3 ft. below the water line.
 - Both models feature a powerful macerator discharge pump that breaks up waste and evacuates the water in the toilet.
 - Both models are supplied complete with 6 ft. of white hose to neatly connect the inlet bowl fitting to either the solenoid valve/syphon breaker assembly or inlet pump.
 - Available in regular or compact bowl sizes.
 - Hygienic, pure white vitreous china bowl for ease of cleaning.
 - Complies with USCG 183.410 and ISO 8846 MARINE (Ignition Protection).
 - See page 163 for service parts
1. Three way control panel allows the operator to select a normal flush and drain cycle or manually lower or raise the water level.
 2. 37245 series is supplied with a remote mounted quiet flush pump to bring in sea, river or lake water for flush.
 3. 37045 series is supplied with a solenoid valve and syphon breaker assembly for connection to any existing pressurized water pump with a flow rate of 3 gpm or more. The syphon breaker prevents back flow from the toilet to the water system.

Solenoid Series	Flush Pump Series	Style	Volts	Fuse	Inlet / Outlet	Dimensions(H x W x L)
JA 37045-0092	JA 37245-0092	Compact	12 vdc	25 amps	3/4" Barb/ 1" Barb	13 3/4" x 14" x 17 1/2"
JA 37045-0094	JA 37245-0094	Compact	24 vdc	15 amps	3/4" Barb/ 1" Barb	13 3/4" x 14" x 17 1/2"

JA 37045-1094	JA 37245-1094	Regular	24 vdc	15 amps	3/4" Barb/ 1" Barb	14 1/2" x 14 1/2" x 19 3/4"

QUIET FLUSH CONVERSION KIT WITH SOLENOID VALVE

Build your own Quiet Flush Toilet using existing Jabsco 37010 series toilets or any manual or electric toilet with bolt fixing on a 3 3/4" diameter circle. This series comes with a solenoid valve and siphon breaker assembly for connection to any existing pressurized water pump with a flow rate of 3 gpm or more. The siphon breaker prevents back flow from the toilet to the water system. The below models also come with a three way control panel which allows the operator to select a normal flush and drain cycle or to lower/raise the water level. Service kit: JA 90197-0000 seal and gasket. See page 163 for service parts. Use parts list for 37045-series.

Model Number	Water Source	Volts	Fuse	Inlet / Outlet	Dimensions (H x W x L)
JA 37055-0092	Solenoid Valve	12 vdc	25 amps	3/4" Barb / 1" Barb	3 1/4" x 8 1/4" x 12"
JA 37055-0094	Solenoid Valve	24 vdc	15 amps	3/4" Barb / 1" Barb	3 1/4" x 8 1/4" x 12"

QUIET FLUSH CONVERSION KIT WITH SUPPLY PUMP

Build your own Quiet Flush Toilet using existing Jabsco 37010 series toilets or any manual or electric toilet with bolt fixing on a 3 3/4" diameter circle. This series comes with a remote mounted quiet running flush pump to bring in sea, river, or lake water for flushing. The below models also come with a three way control panel which allows the operator to select a normal flush and drain cycle or to lower/raise the water level. Service kit: JA 90197-0000 seal and gaskets. See page 163 for service parts. Use parts list for 37245-series.

Model Number	Water Source	Volts	Fuse	Inlet / Outlet	Dimensions (H x W x L)
JA 37255-0092	Supply Pump	12 vdc	25 amps	3/4" Barb / 1" Barb	3 1/4" x 8 1/4" x 12"
JA 37255-0094	Supply Pump	24 vdc	15 amps	3/4" Barb / 1" Barb	3 1/4" x 8 1/4" x 12"
