Crown

CROWN HEAD AND CROWN HEAD II

The Crown head has been one of the most popular commercial and recreational marine toilets for years. They are still used today on many Coast Guard vessels. The Crown Head II is an updated version with a modern look. Both are available with marine or household size bowls. The original Crown Head features an integral intake pump. The Crown Head II utilizes either a remote intake pump (standard) or a fresh water solenoid (optional). Colors are white and bone. Voltages are 12, 24, 32 vdc or 115/230 vac.

Many model options available. For model information call our sales team or visit our website www.depcopump.com for full spec sheets.
