

JABSCO REMOTE CONTROL SEARCHLIGHTS

JABSCO

135SL, 146SL and 255SL

100,000 - 200,000 CP NON-METALLIC SEARCHLIGHTS

The Jabsco "SL" series searchlights offer three sizes that deliver up to 200,000 candlepower in a corrosion resistant, non-metallic housing. The 135 SL will rotate up to 320° horizontally and 75° in a vertical sweep. The 146 and 255 SL series rotate a full 360° horizontally and 60° in a vertical sweep. All models are available with an optional secondary control panel for dual helm stations.

JABSCO

5", 7" and 8" 620XX Series

100,000 - 500,000 CP METALLIC SEARCHLIGHT

These 7" and 8" Jabsco premium searchlights have heavily chromed all brass beam housings and bases. The 5" search lights have electro-polished stainless steel housing and base. They are electrically controlled with variable speed motors enabling fast search and yet precise targeting. Optional secondary full control panels for dual helm stations are available below. The 5" series has both spot and flood beams while the 7" and 8" series have spot beams only.
