

FLOODED SUCTION CENTRIFUGALS

OBERDORFER

101M Series ($\frac{3}{8}$ " x $\frac{3}{8}$ ")

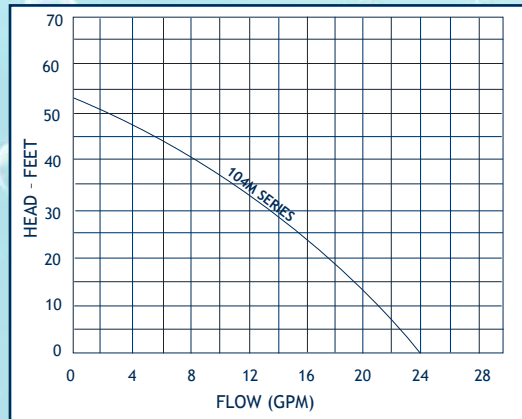

UP TO 9 GPM, 27' TDH

- Used extensively in marine A/C systems, watermakers, feed and chiller systems
- Bronze construction
- Elastomer Options: Buna, Viton® and Teflon®
- Drive Options: pedestal mount, AC and DC voltages, single and three phase, ODP, TEFC, explosion proof and custom configurations
- See page 154 for service parts

OBERDORFER

104M Series ($\frac{1}{2}$ " x $\frac{3}{4}$ ")

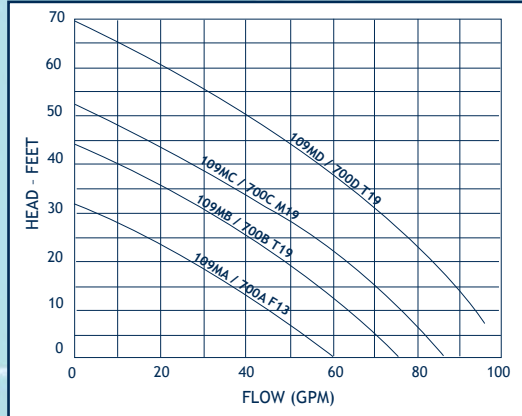

UP TO 24 GPM, 52' TDH

- Used extensively in marine A/C systems, watermakers, feed and chiller systems
- Bronze construction
- Elastomer Options: Buna, Viton® and Teflon®
- Drive Options: pedestal mount, AC and DC voltages, single and three phase, ODP, TEFC, explosion proof and custom configurations
- Discharge port is $\frac{1}{2}$ " FPT and $\frac{3}{4}$ " MPT
- See page 154 for service parts

OBERDORFER

109MB / 700 Series (1" x 1 $\frac{1}{4}$ ")

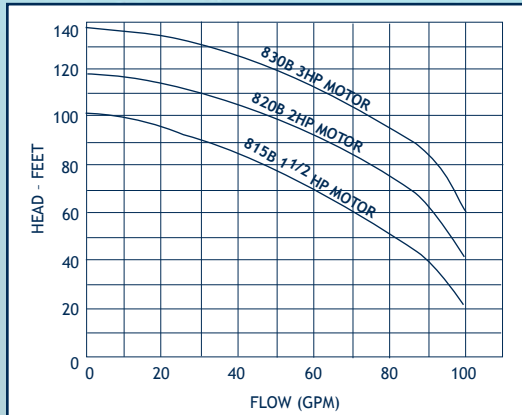

UP TO 95 GPM, 70' TDH

- Used extensively in marine A/C systems, watermakers, feed and chiller systems
- Bronze construction
- Elastomer Options: Buna, Viton® and Teflon®
- Drive Options: pedestal mount, AC and DC voltages, single and three phase, ODP, TEFC, explosion proof and custom configurations
- See page 154 for service parts

OBERDORFER

815/820/830B Series (1 $\frac{1}{4}$ " x 1 $\frac{1}{2}$ ")

UP TO 100 GPM, 135' TDH

- Used extensively in marine A/C systems, watermakers, feed and chiller systems
- Bronze construction
- Elastomer Options: Buna, Viton® and Teflon®
- Drive Options: pedestal mount, AC and DC voltages, single and three phase, ODP, TEFC, explosion proof, and custom configurations
