

SPECIALTY CENTRIFUGALS

OBERDORFER

Shaft Driven Series

UP TO 100 GPM, 130' TDH

- For multiple marine applications
- Bronze construction
- Seal Options: Buna or Viton® mechanical seal
- Drive Options: pulley or coupling driven
- OB 30PB and OB 75PB are self-priming models

MP

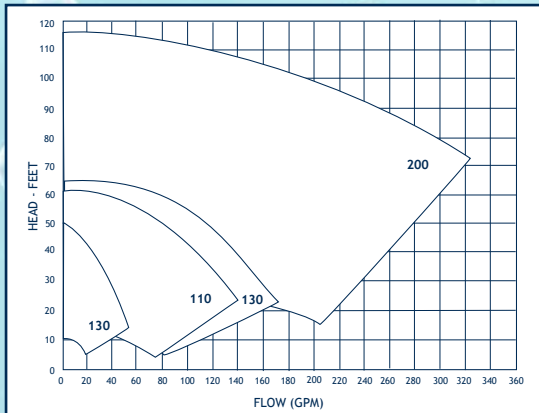

Left Hand

Right Hand

Reversible

30, 110, 130 and 200 Series

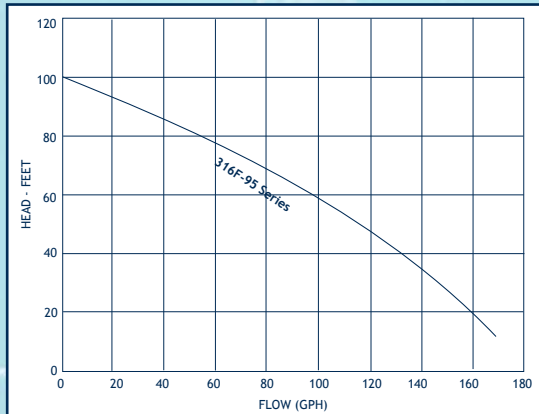

UP TO 320 GPM, 115' TDH

- For multiple marine applications
- Semi-open impeller
- Construction: cast iron or bronze
- Seal Options: Viton® or packing
- Drive Options: pulley, clutch or electric motor

AMT

2" Dredging Pump

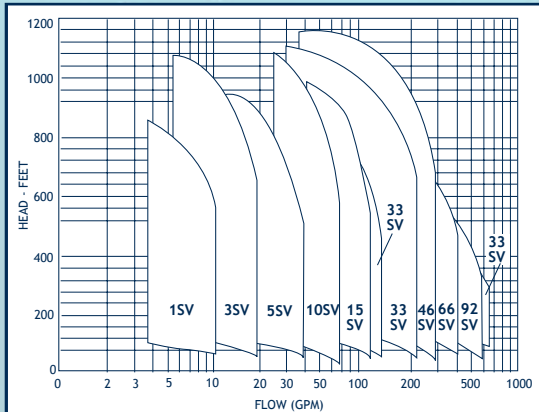

UP TO 173 GPM, 100' TDH

- For multiple marine applications
- Self-priming to 20 feet
- Handles up to 1/2" solids, 25% sand
- Construction: cast iron casing and adaptor with high chromium stainless steel internal components
- Seal Options: silicon carbide/Buna mechanical seal
- Drive Options: 5.5 hp Honda OHV engine with oil alert (pedestal version available for electric or belt drive)

GOULDS WATER TECHNOLOGY

ESV Multi-Stage Centrifugal Series

UP TO 700 GPM, 1150' TDH

- For multiple marine applications
- "15 minute" replaceable mechanical seal available in carbon/ceramic or sc/sc
- Interchangeable dimensionally and hydraulically with most Grundfos CR series pumps
- Single and three phase, ODP, TEFC, explosion proof motors
- New "i-alert™" vibration monitoring device option to prevent sudden failure
