

3/8" TO 1 1/4", UP TO 95 GPM, UP TO 70 TDH, IN 56J MOUNT BRONZE CONSTRUCTION

Oberdorfer manufactures a high quality bronze centrifugal pump series with Buna, Viton and Teflon elastomer options. A wide array of drives includes pedestal mount, AC and DC voltages, single and three phase, ODP, TEFC explosion proof and custom configurations.

OBERDORFER

500 Series (3/8" x 3/8")

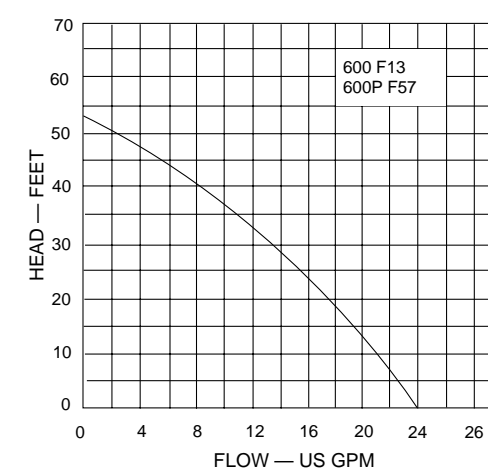

UP TO 9 GPM, 27 TDH

- Temperatures to 300° F
- Semi-open impeller
- Bronze Construction
- Elastomer Options: Buna, Viton and Teflon
- Drive Options: pedestal mount, AC and DC voltages, single and three phase, ODP, TEFC, explosion proof and custom configurations

OBERDORFER

600 Series (1/2" x 3/4")

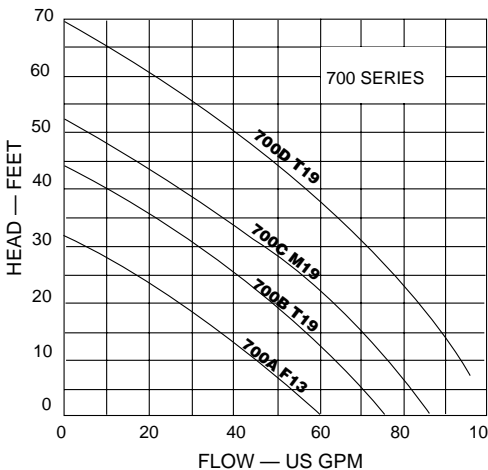

UP TO 24 GPM, 52 TDH

- Temperatures to 300° F
- Semi-open impeller
- Bronze Construction
- Elastomer Options: Buna, Viton and Teflon
- Drive Options: pedestal mount, AC and DC voltages, single and three phase, ODP, TEFC, explosion proof and custom configurations

OBERDORFER

700 Series (1" x 1 1/4")

UP TO 95 GPM, 70 TDH

- Temperatures to 300° F
- Semi-open impeller
- Bronze Construction
- Elastomer Options: Buna, Viton and Teflon
- Drive Options: pedestal mount, AC and DC voltages, single and three phase, ODP, TEFC, explosion proof and custom configurations
