## FLOTEC

Above Ground Pools

### 3/4, AND 1 HP ABOVE GROUND SWIMMING POOL PUMPS

Flotec's above ground swimming pool pumps will replace any comparable 115/230 vac residential above ground pool pump. They are corrosion resistant with a large capacity hair and lint strainer and see-through lid. Each pump comes with a three-foot power cord and detailed instruction manual.

Pump Model	HP	Volts AC	Port Size	Max GPM	Max Head
FLT FP6121	3/4	115	1 1/2" FPT	80	35'
FLT FP6131	1	115	1 1/2" FPT	92	35'

## FLOTEC

Swimming Pool Cover

### SWIMMING POOL COVER / UTILITY PUMP

This multi-functional swimming pool cover / utility pump is for use in many applications. It eliminates the hassle of cleaning off excess water that has collected on a pool cover or can be used anywhere water is needed to be removed horizontally or up to 5' vertically. It will pump up to 400 gph, is energy efficient (draws only 16 watts), utilizes a sealed, epoxy-encapsulated, oil free motor and pumps up to 75% more than other pool cover pumps in its class.

Model Number	GPH at Feet of Head					Max Head	Port Size
	0'	1'	3'	5'	7'		
FLT FPTS400X	400	350	300	170	-	7'	3/4" GHT

## LITTLE GIANT

Pool Cover / Roof / Utility

### HIGH VOLUME AUTOMATIC POOL COVER / ROOF / UTILITY PUMP

Little Giant's 5-APCP pump includes a stabilizing plate and an automatic switch that turns the pump on at approximately 2 1/2" of water (or higher) and turns off at approximately 1 1/4" of water level. This pump is more than just a pool cover pump! It can remove standing water in almost any area including roofs, patios, basements, etc. The pump includes a garden hose adapter and a 25' standard 3-prong power cord.

Model Number	Volts AC	GPH at Feet of Head				Max Head	Outlet Port
		1'	3'	5'	10'		
LG 5-APCP	115	1200	1170	1100	1000	26.3'	1" FPT or 3/4" GHT
