

**BULKHEAD MOUNT PRESSURE REGULATORS**

Protect your boat's water system appliances and pump from the damaging pressure of unregulated marina water hookups. These pressure regulators reduce high water pressures of up to 100 psi down to safe levels. They also include a backflow preventer. Intake port is 3/4" GHT garden hose and the discharge is 1/2" MPT.

	SF 183-029-01 (Cream)

**IN-LINE MOUNT PRESSURE REGULATORS**

These in-line water pressure regulators make it easy to protect your boat from high pressure water spikes. They install easily on your garden hose with their 3/4" x 3/4" GHT ports. They also include a backflow preventer.
