

ACCESSORIES (Lights / Blowers / Strainers)

Depco carries a variety of accessories that are supplied by our represented pump manufacturers or compliment our product lines. These include AC and DC blowers and remote control lights manufactured by Jabsco, strainer, seacocks and fitting manufactures by Groco and multiple fittings, hoses and accessories that simplify the installation and operation of our pumps.

Hose and Fittings

3/8" to 2" in Stock

For your convenience, we inventory many of the common fittings, stainless steel hose clamps, vinyl reinforced water system/utility hose and ribbed non-collapsible suction/discharge hose. (See page 53.) Other sizes of hose and fittings are available. Call for details.

32 VDC Blowers

Flange and Flex Mounting

32 vdc was used extensively on commercial vessels and larger yachts. Today, 24 vdc has become the standard, making it difficult to obtain 32 vdc equipment. Depco maintains a good inventory of 32 vdc blowers (see page 51) along with other 32 vdc pumps and motors.

Thru-Hulls and Seacocks

3/8" to 3"

Yes, Depco is now stocking a representative inventory of seacocks and thru-hulls manufactures by Rule, Groco and Perko. Pumps will always be our specialty. But when asked to carry these items we deliver!

Stainless Steel Strainers

2" to 10" Miller-Leaman

Miller-Leaman manufactures the finest seawater strainers available on the market today. They come standard with a conical screen element, pressure gauge ports and flush ports. Custom configurations are available to meet your specific needs. (See page 58)

ABS Compliant Strainers

4" to 6" by Groco

These high volume strainers have an optional solid bronze bowl that makes them ABS compliant. 4", 5" and 6" sizes are available that will handle up to 1,000 gpm. They incorporate a corrugated filter basket that increases filter capacity. (See page 57)

Impeller pullers save your pump housings!

For 2 1/2" to 5" Diameter

These tools provide an easy way of removing flexible impellers. Simply tighten the tool's grip fingers into the rubber hub of the impeller and turn the extraction screw! (See page 141)

Self-Cleaning Strainers

Groco's Hydromatic

Groco's Hydromatic strainer will eliminate the nuisance of unwanted and untimely system shutdowns and can function as a sea chest, reducing the cost of multiple seacocks, strainers, and related fittings and hose. (See page 55)

Puddle Scooper

Hooks to 3/4" Garden Hose

This useful and inexpensive tool allows you to clean-up liquid spills right off the floor using any self-priming pump with 3/4" garden hose connections. (Part # SM SA-35)
