

JABSCO

100,000 - 200,000 NON-METALLIC SEARCHLIGHTS

The JabSCO "SL" series searchlights offer three sizes that deliver up to 200,000 candlepower in a corrosion resistant, non-metallic housing. The 135 SL will rotate up to 320° horizontally and 75° in a vertical sweep. The 146 & 255 SL series rotate a full 360° horizontally and 60° in a vertical sweep. All models are available with an optional secondary control panel for dual helm stations.

JABSCO

Chrome Series

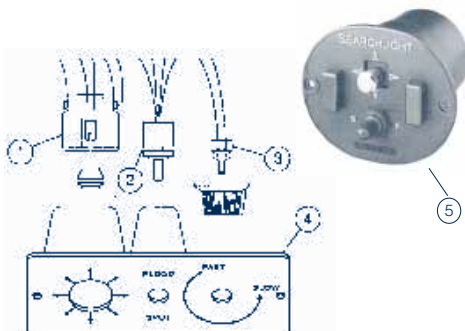

100,000 CANDLEPOWER CHROME SEARCHLIGHT

The JabSCO 62022 series 5" lights have a motorized drive that is completely enclosed in the light housing, a zinc base, and a polished chrome finish. The watertight control features a fingertip control lever for 370° horizontal sweep and 65° vertical motion, and a dual speed switch for precise beam control in conjunction with an on/off switch for spot or flood beam. (Additional cable & dual station controls available – see below).
