DESIGNER TOILETS

Jabasco DS14 and DS17 Designer Style electric toilets bring a new level of elegance to marine toilets. These sleekly contoured toilets will add an element of luxury aboard any vessel. The very low noise level of the flush pump and evacuation pump also contribute to onboard comfort.

The two models differ only in height, allowing them to be fitted either on a raised platform or on the floor. Both are designed to fit snugly against a vertical bulkhead, with all wiring and plumbing concealed by the bowl to give a clean uncluttered look.

The bowl and full size seat assembly have been designed for comfort. Both models can be supplied to flush with either fresh or salt water.

- All models are very quiet running.
- A powerful waste water evacuation pump with built in macerator is included with both models.
- Available in standard pure white china bowl or new stylish bone colored bowl.
- Hygienic, vitreous china bowl for ease of cleaning.
- Mounting bolts included.
- May be mounted up to 3 ft. below the water line.
- Complies with USCG 183.410 and ISO 8846 MARINE (Ignition Protection).

1. Three way control panel allows the operator to select a normal flush and empty cycle or to raise or lower the water level as required.
2. 37275 series is supplied with a remote mounted self-priming pump to bring in sea, river or lake water to flush.
3. 37075 series is supplied with a solenoid valve and syphon breaker assembly for connection to any existing pressurized water system capable of delivering 3 gpm or more. The syphon breaker ensures there is no back flow from the toilet into the water system.

DS14 LOW PROFILE ELECTRIC TOILETS

Listed below are the low profile models, which are available in two water supplies (solenoid valve or intake pump) and two voltages (12 or 24 vdc). Service kits: JA 90197-0000 (seals and gaskets) and JA 30617-1000 (flush pump parts 37275 series only).

Model Number	Color	Water Source	Volts	Fuse	Inlet/Outlet	Dimensions (H x W x L)
JA 37075-0092	White	Solenoid Valve	12 vdc	25 amps	3/4" Barb / 1" Barb	14" x 15 1/2" x 19"
JA 37075-0094	White	Solenoid Valve	24 vdc	15 amps	3/4" Barb / 1" Barb	14" x 15 1/2" x 19"
JA 37275-0092	White	Intake Pump	12 vdc	25 amps	3/4" Barb / 1" Barb	14" x 15 1/2" x 19"
JA 37275-0094	White	Intake Pump	24 vdc	15 amps	3/4" Barb / 1" Barb	14" x 15 1/2" x 19"

DS17 REGULAR HEIGHT ELECTRIC TOILETS

Listed below are the regular height models, which are available in two water supplies (solenoid valve or intake pump) and two voltages (12 or 24 vdc). Service kits: JA 90197-0000 (seals and gaskets) and JA 30617-1000 (flush pump parts 37275 series only).

Model Number	Color	Water Source	Volts	Fuse	Inlet/Outlet	Dimensions (H x W x L)
JA 37075-1092	White	Solenoid Valve	12 vdc	25 amps	3/4" Barb / 1" Barb	14" x 15 1/2" x 19"
JA 37075-1094	White	Solenoid Valve	24 vdc	15 amps	3/4" Barb / 1" Barb	14" x 15 1/2" x 19"
JA 37275-1092	White	Intake Pump	12 vdc	25 amps	3/4" Barb / 1" Barb	14" x 15 1/2" x 19"
JA 37275-1094	White	Intake Pump	24 vdc	15 amps	3/4" Barb / 1" Barb	14" x 15 1/2" x 19"
