

BRONZE AND CAST IRON CENTRIFUGALS

BURKS

GA5 (1 1/4" x 1 1/2")

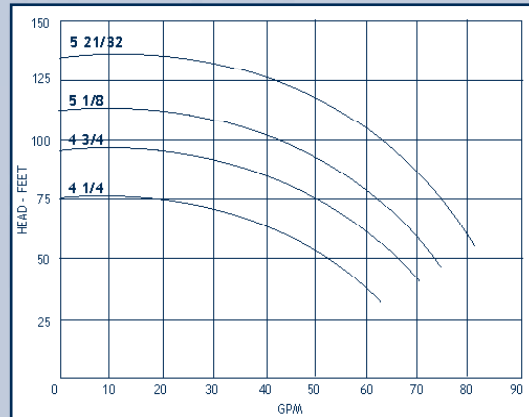

UP TO 100 GPM, 105 TDH

- Enclosed impeller
- Bronze or cast iron construction
- Seal Options: Buna or Viton® mechanical seals
- 1/3 to 3 hp sizes
- Drive Options: pedestal mount, AC or DC voltages, single and three phase, ODP, TEFC, and custom configurations

BURKS

G6 (1 1/4" x 1 1/2")

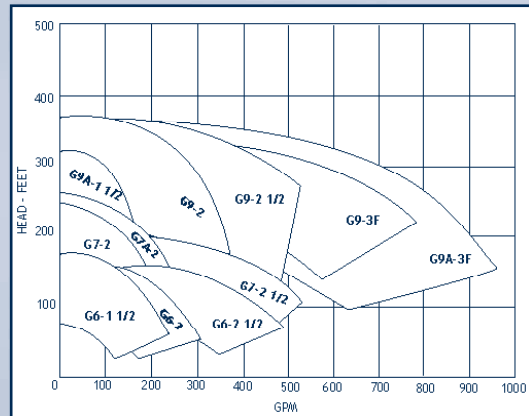

UP TO 80 GPM, 135 TDH

- Enclosed impeller
- Bronze or cast iron construction
- Seal Options: Buna or Viton® mechanical seals
- 1/3 to 3 hp sizes
- Drive Options: pedestal mount, AC or DC voltages, single and three phase, ODP, TEFC, and custom configurations

BURKS

G-Series (3500 rpm)

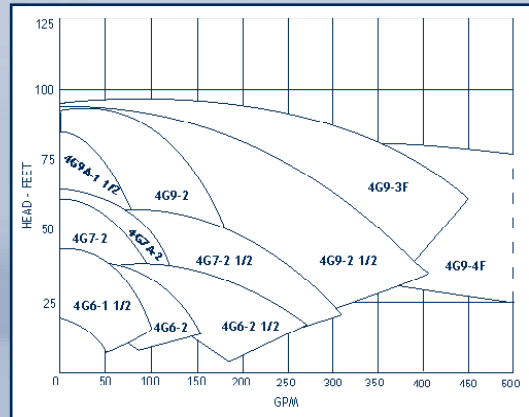

UP TO 960 GPM, 380 TDH

- Enclosed impeller
- Bronze, cast iron bronze fitted or all cast iron construction
- Seal Options: multiple mechanical seal options
- 1 1/2" x 2" to 4" x 5" ports
- 1 to 100 hp sizes
- Drive Options: pedestal mount, single and three phase, ODP, TEFC, explosion proof and custom configurations

BURKS

G-Series (1750 rpm)

UP TO 1100 GPM, 95 TDH

- Enclosed impeller
- Bronze, cast iron bronze fitted or all cast iron construction
- Seal Options: multiple mechanical seal options
- 1 1/2" x 2" to 4" x 5" ports
- 1 to 15 hp sizes
- Drive Options: pedestal mount, single and three phase, ODP, TEFC, explosion proof and custom configurations
