

Hydra-Cell[®]

Industrial Pumps

Pump/Motor Baseplates & Guards

- Heavy gauge construction
- Powder coated steel or 303 grade stainless steel
- Ready to assemble — all mounting holes fully threaded
- Complete package includes all bolts, guards and shims
- Available for size 56 through 326 NEMA motor frames
- Customized versions available

HBD Series
Horizontal belt drive with guard

VBD Series
Vertical belt drive with guard

NEW!

HFD Series
Horizontal flanged adapter drive

HDD Series
Horizontal direct drive

Construction

D10 Bases and guards are contour formed for maximum strength and safety. Steel thickness from 10 to 7 gauge.

H25 Heavy duty contour formed and welded reinforced design. All steel plate 3/16" thick.

H25 Heavy duty contour formed and welded reinforced design. All steel plate 1/4" thick.

- Baseplates and guards available in blue epoxy powder coated steel or Grade 303 stainless steel
- Pump, motor, adjustable motor base, coupling, flange adapter, pulleys and belt ordered separately
- Belt guards are flattened expanded metal half inch mesh

HDD Series Horizontal direct drive

Baseplate Includes:

- Mounting hardware
- Set of shims
- Coupling guard

HFD Series Horizontal flanged adapter drive

Baseplate Includes:

- Mounting hardware

HBD Series Horizontal belt drive w/guard

Baseplate Includes:

- Mounting hardware
- Belt pulley guard

VBD Series Vertical belt drive w/guard

Baseplate Includes:

- Mounting hardware
- Belt pulley guard
