- **Permanent oil drain kit allows oil changes through a conveniently located, permanently installed hose**
- **Powered by a standard 1/4" or 3/8" hand drill, this amazing little pump will remove oil, drain tanks, transfer chemicals and satisfy many other shop and home uses**

“PORTA QUICK” Oil Changer

Jabsco Porta-Quick Oil Changer gives you quick, easy and clean oil changes at the flip of a switch.

It removes oil and sludge through the dip-stick tube making engine oil changes quick and easy without getting under the engine.

The oil changer is supplied with both a 1/4" x 40" dipstick probe and a female garden hose connector to attach the suction hose directly to dipstick tubes supplied with male garden hose threads. The reversible pump allows the container to be emptied neatly and easily by reversing the flow direction and pumping the container dry.

A retractable pouring spout is also provided if it is not desirable to use the pump for emptying. It is available in 12 Vdc and has an 8' cord with alligator clips.

- Weight 9 lb (4,1 kg),
- Height 13-5/8" (345mm),
- Width 13-1/2" (343mm).

17800-1000

TO OPERATE:

Simply connect the power cord to an appropriate electrical source. Then, with a flick of the switch, the sturdy motor pump unit drains the crankcase into the units 14 quart holding container.

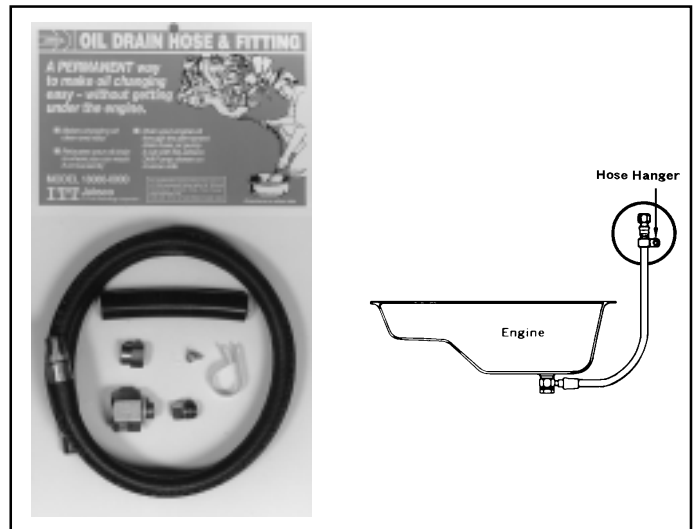

Permanent Oil Drain Hose & Fitting

The Jabsco Oil Drain Hose Assembly includes drain plug fitting, oil drain hose, cap and hose hanger clamp.

It is an ideal oil drain kit for use in conjunction with a Jabsco drill pump, Model 17215-0000, or hand pump, Model 34060-0010.

- Drain plug fitting size is 1/2" - 20.
- Packed in poly bag with display header card.
- Standard carton - 12, Wt. 11 lb (5 kg).

NOT RECOMMENDED FOR AUTOMOBILES WITH DRAINPLUGS EXPOSED TO POTENTIAL ROAD HAZARD DAMAGE.

Self-Priming Electric Drill Pumps

MARINE

Empty water tanks, bait wells or fish wells.
Remove heated oil from engines.
Bail water from small boats at dockside.

HOME

Remove water from clogged sinks or toilets.
Empty aquariums, garden pools or fountains.

INDUSTRY

Transfer mild chemicals, pump liquid from drums, empty sumps or remove cutting oil from machine reservoir.

FARM

Transfer fertilizers, empty or fill tanks on spray equipment. Add ballast to tractor tires.

Self-priming: chucks into a standard 1/4" or 3/8" drill motor and pumps up to 3-1/2 GPM (13 LPM). Use it for general utility pumping, scavenging jobs and many uses around boat, home, plant, shop or farm.

Included with pump are two 3/4" garden hose thread port adaptors. Order **17255-0003** for replacement impeller and shaft assembly.

This self-priming drill pump kit is the same utility pump as 17250-0003 but includes all the accessories required for changing engine oil through the dipstick tube.

Included are 3 feet of 1/2" hose, probe adaptor and 1/4" x 40" dipstick probe and two 3/4" garden hose thread port adaptors. Packed in poly bag with display header card.

- Standard Carton 12 Kits
- Weight 7.5 lb (3,4 kg).

17250-0003

17215-0000

Explosion hazard. Do not operate drill motors in areas with flammable vapors. To do so may cause an explosion that can result in injury or death.
