

Many stabilizers require a DC, AC, or Hydraulic pump for cooling. Depco has them all!

Primetime Self-Primer in 316SS

Primetime pumps will not AIR-LOCK! Created to lift water 6', these rugged 316SS 3/4" pumps come equipped with a long-lasting mechanical seals and multiple drives including 12 & 24VDC, 115 & 230VC, and Hydraulic motor.

PRIMETIME Model Number	Port Size	GPM @ Feet of Head			Max Head
		10'	15'	20'	
Primetime 115vac 60hz	3/4" FPT	21	16	10.5	23'
Primetime 230vac 60hz	3/4" FPT	21	16	10.5	23'
Primetime 230vac 50hz	3/4" FPT	13.5	7	0	18'
Primetime 12vdc	3/4" FPT	17.5	11.5	5.5	23'
Primetime 24vdc	3/4" FPT	13	7.5	0	19'
Primetime Hydraulic-PT	3/4" FPT	31	28	25	51'

Gianneschi Self-Primer in Bronze

These bronze self-priming pumps are available in 24VDC and 110VAC and will lift up to 26'. Each one comes equipped with 3/4" ports and long-lasting mechanical seal.

GIANNESCHI Model Number	Port Size	GPM @ Feet of Head			Max Head
		10'	20'	40'	
CP26A1 110vac 60hz	3/4" FPT	19.5	17	10	55'
CP26A1 24vdc	3/4" FPT	15	12	5	39'
CP26A2 24vdc	3/4" FPT	16	13	8	54'

March Magnetically Driven Pumps

March Pumps drive their impellers with magnetic force, eliminating the need for a seal! The LC series utilizes submersible motors, making them the ideal pump to mount low in the bilge. All sizes are available in 115 & 230VAC.

MARCH Model Number	Port Size FPT x MPT	GPM @ Feet of Head			Max Head
		3'	5'	12'	
LC-2CP-MD 115vac or 230vac	*3/4" x 1/2"	19.5	17	10	19'
LC-3CP-MD 115vac or 230vac	3/4" x 1/2"	8.3	8	5.4	19'
AC-5C-MD 115vac or 230vac	1" x 1/2"	16.3	15	12.5	27'

*Male Pipe Thread suction port on LC-2CP-MD series

Stabilizers take the **ROCK-N-ROLL** out of boating!

Meet Our #1 Pump Geek
Jason Hebert!

How Stabilizers Work:

The primary goal of a stabilizer is to counteract the energy of waves. When a wave pushes the hull to the port side, the stabilizer creates an equal and opposite force to push it back toward the starboard side. The two main methods used are fins and gyroscopes. Fins protrude off either side of the hull like wings that tilt and/or flap to counteract the rolling motion while Gyroscopes use a heavy spinning flywheel to resist any rolling movement.

Pump Geek Spotlight: Mitch S.

As we kick off the New Year, I'm also celebrating a major milestone: 10 years at Depco!

What's kept me here for a decade? It's definitely the people. We have a unique family dynamic that makes the hard work enjoyable. I love that no two days are the same; tackling new challenges and finding creative solutions for our customers keeps me motivated.

Outside of the office, my life is all about family and the great outdoors. You'll usually find me taking the kids fishing, relaxing at the beach, or sitting around a campfire.

Pump Geek Spotlight: Joe F.

Twenty years at Depco and I still love coming to work every day! 🚢 ⚙️

My role keeps me on my toes—balancing the complexities of international export/import law with the technical world of Marine and Industrial pumps. One hour I'm assisting a luxury yacht, and the next, I'm helping a chocolate manufacturer in Germany keep their production lines moving.

When I'm off the clock, my life is centered around my faith, my ministry degree, and my family. You can usually find us at a local car show or the shooting range. 🏰 🚗 🎯

Pump Geek Spotlight: Dorian L.

Dorian joined the Depco family 25 years ago, and since then, he has become a cornerstone of our success. As a key member of our marine sales team, Dorian plays an essential role in our daily operations, bringing a level of expertise that is truly special. A self-proclaimed "pump geek," Dorian can answer almost any marine question thrown his way, a testament to the consistency and dedication he has shown over the decades.

One of Dorian's greatest strengths is his ability to assist our Spanish-speaking clients. Being bilingual is a reflection of the diversity and long-term opportunities we aim to create here at Depco. He is known throughout the office as a hard worker who is always available to go the extra mile. His reliability, positive attitude, and "team-first" mindset continue to make a meaningful impact every single day—it is easy to see why Dorian loves the world of marine sales.

Dorian's passion for service extends well beyond the office. Outside of work, he enjoys doing charitable work within the community as a Master Mason. Just this past week, he was seen giving back by volunteering at a Friday night fish fry.

Thank you, Dorian, for your years of dedication, your hard work, and for being such an important part of the Depco story. We are incredibly grateful to have you as part of our family!
