

Model: 14780-0001

QUARTZ FLOODLIGHT FEATURES

- Rugged housing of heavy duty die-cast aluminum.
- Reflector has superior anodic finish with diffused finish to provide wide beam spreads.
- Silicone gaskets weatherproof all critical points.
- Corrosion resistant hardware used on all exposed surfaces.
- Metal clad, spring-loaded porcelain sockets are protected by end reflectors from heat.
- Factory prewired with silicone glass braided wires extending 6" from stem.
- Aiming bars located on both sides of housing and 1/2" stem mounting arm complete with 180° aiming sector and repositioning stop.

Model 14780-0001

**14780-0001
500 WATT**

INSTALLATION AND AIMING

Fire hazard. Light housing gets hot during operation. Do not mount within two inches of combustible materials. Fire can result.

1. Bring socket leads thru swivel arm and make connections in junction box.
2. Rotate in horizontal plane to desired area to be illuminated. Secure in position with lock-nut.
3. Set vertical aiming angle by loosening bolt and set screw.
4. Using aiming index, align indicator on fin with desired angular setting and tighten.

Quartz-iodine bulb manufacturers recommend operation within 4° of horizontal from end to end.

Light housing gets hot during operation. Do not touch during or immediately after operation. Burns can result.

NOTICE: Use a clean cloth, gloves, or hold by the ceramic socket ends when handling the bulb.
